#### About us

The British Council is the UK's international organisation for cultural relations and educational opportunities. We create friendly knowledge and understanding between the people of the UK and other countries. We do this by making a positive contribution to the UK and the countries we work with – changing lives by creating opportunities, building connections and engendering trust.

We work with over 100 countries across the world in the fields of arts and culture, English language, education and civil society. Each year we reach over 20 million people face-to-face and more than 500 million people online, via broadcasts and publications. Founded in 1934, we are a UK charity governed by Royal Charter and a UK public body.

British Council Tunisia employs approximately 70 members of staff. Our activities are broad-based, including a thriving Teaching Centre, growing Exams business, and a sizeable portfolio of grant, partnership and externally-funded English, Education, Arts and Society programmes and projects.

The Supplier will advise the implementation of the EU4Youth. The project is a co-delegation between AECID, the British Council, and FIIAPP, with AECID as the lead partner. The overall value is €15.460.000. Through this project, and the wider framework of the overall EU4YOUth Initiative for Tunisia (€60m from 2018), the European Union aims to support the social and economic inclusion of young people across the country. To contribute specifically to this, our joint project's overall objective / expected (long-term) impact is: "The inclusion and participation of young vulnerable Tunisians in public life is strengthened through creativity, culture and sport while taking into consideration the different forms of exclusion".

The AECID, British Council, and FIIAPP approach to delivering these outcomes is based on the following:

- working with vulnerable youth and their communities and responding to their needs
- building confidence, inclusion, and sustainability: including information and knowledge sharing between vulnerable youth and their communities to ensure their access to economic and creative opportunities
- supporting the development of public policies and civil society initiatives in sport and culture that are accountable and transparent and focus on vulnerable youth and their communities
